## WELCOME TO CORONET RV

Coronet has a unique history, first established in 1959 manufacturing in Ballarat Victoria. Then from 1991 under the ownership of Andrew Phillips manufacturing recommenced in Bayswater Victoria where Head Office is today. We are a boutique recreational vehicle manufacturer specialising in traditional, contemporary and futuristic designs with a flexible range of interior layouts. Our Design team can also produce a specific custom design to suit your lifestyle.

## OUR MISSION

Coronet aims to provide a superior range of recreational vehicles and services to its customers that ensures their investment is an enjoyable life long experience. To achieve this Coronet has secured a modern and technically advanced manufacturing facility surrounded by a passionate workforce that strives to deliver quality outcomes for its customers. We have a close working relationship with our suppliers providing flexibility throughout the construction phase allowing subtle changes and personal touches required and admired by our Customers.

Our commitment is your guarantee that investing in an Australian manufactured Coronet RV is much more than the initial purchase, it's the beginning of a prosperous partnership.

## OUR FUTURE

Continue developing a range of Quality recreational vehicles and custom designs that are unique. Whilst market trends will play a role over time in what concepts are more often than not constructed, designs of late indicate a move toward full en-suite bathrooms combined with an open plan approach in the living area for both on and off road travellers. It appears more travellers have the urge to experience remote locations away from 240V power supply and fortunately for Coronet it's a market we have extensive experience. In addition compact designs with all the bells and whistles are emerging and these offer the traveller just about all the features of larger Caravans in a lighter towing package. The future is very exciting at Coronet RV so what are you waiting for!

## STR SERIES — SUPER TOURING RANGE

If touring the Aussie landscape via the black top is on your radar, then look no further than the STR – Series incorporating all the bells and whistles to make your next journey rather like a studio apartment on adrenalin, with the flexibility of visiting every point of the compass when you want. With an outstanding set of features and only a few options the STR – Series is your ticket to freedom. European style double acrylic windows and hatches compliment the silver and white traditional cladding or as an option FRP (glass fibre) gloss white exterior walls and roof to suit your lifestyle journey. Extensive range of interior decorative colours available including white-on-white for clients looking for the ultra-modern look. The STR Series is designated as an "on road" caravan/pop top and is therefore constructed accordingly. Our "Semi and Off Road" XT Range models can be found on our web site.

#### STR 7050 - 2 - T

CARAVAN ONLY

CREATE YOUR OWN PLAN

There are variations in the layout of the floorplan between the caravan and pop top.

Our Nomenclature explained. Example STR - 5950 - 4 - T

STR = Super Touring Range

4 = Internal Design Code

5950 = Nominal internal body length in mm

T = Tandem Axle Configuration (S=Single axle configuration)

- Body length, height, width, tare mass, ATM, GTM, and ball weight not supplied as these change pending final specification. Please contact your Dealer or Coronet RV for a guide.

- Queen Bed size = 1900mm long x 1530 wide (larger bed available)
