

WELCOME TO CORONET RV

Coronet has a unique history, first established in 1959 manufacturing in Ballarat Victoria. Then from 1991 under the ownership of Andrew Phillips manufacturing recommenced in Bayswater Victoria where Head Office is today. We are a boutique recreational vehicle manufacturer specialising in traditional, contemporary and futuristic designs with a flexible range of interior layouts. Our Design team can also produce a specific custom design to suit your lifestyle.

OUR MISSION

Coronet aims to provide a superior range of recreational vehicles and services to its customers that ensures their investment is an enjoyable life-long experience. To achieve this, Coronet has secured a modern and technically advanced manufacturing facility surrounded by a passionate workforce that strives to deliver quality outcomes for its customers. We have a close working relationship with our suppliers providing flexibility throughout the construction phase allowing subtle changes and personal touches required and admired by our Customers.

Our commitment is your guarantee that investing in an Australian manufactured Coronet RV is much more than the initial purchase, it's the beginning of a prosperous partnership.

OUR FUTURE

Continue developing a range of Quality recreational vehicles and custom designs that are unique. Whilst market trends will play a role over time in what concepts are more often than not constructed, designs of late indicate a move toward full en-suite bathrooms combined with an open plan approach in the living area for both on and off-road travellers.

It appears more travellers have the urge to experience remote locations away from 240V power supply and fortunately for Coronet it's a market we have extensive experience. In addition, compact designs with all the bells and whistles are emerging and these offer the traveller just about all the features of larger Caravans in a lighter towing package. The future is very exciting at Coronet RV so what are you waiting for!

XT2 EXPLORER SERIES

Looking for adventure away from the blacktop exploring National or State Parks, or looking to get to those far and away places, then the XT2 Explorer will get you there. Packed to the rafters with standard features this Series is all about comfort outback style. In either single or tandem

axle configuration with independent coil suspension you can be assured of a comfortable ride through testing terrain. Full en-suites (most models), your choice of either 3-way power or 12/240 compressor fridges including battery(s) and solar are just a few standard luxuries that are offered for overnight independence. If you're planning trips to the Outback, Flinders Ranges or the high country Alpine regions, you need the XT2 Explorer. Check out the standard features within this brochure and compare, you will be very surprised. So what are you waiting for.

Definition - Off Road. There is no accurate definition of the term "Off Road" within the RV Industry.

In the event that you are traversing corrugations, water crossings, non-maintained tracks, mud, bull dust, sand or any rough terrain that may cause the Van to bounce and therefore lose constant traction, in our view your road speed is too excessive and damage to the Van will most likely occur. To avoid this, your road speed must be reduced to meet the conditions of the terrain and the Van's tyre pressures deflated to the tyre manufacturer's recommendation for the type of terrain you are traversing. Excessive speed resulting in damage to the Van or water ingress into the Van from water crossings or floods may void any claim for warranty in part or full.

XT2 EXPLORER SERIES FLOOR PLANS

CHECK OUR WEB SITE FOR MORE FLOOR PLANS OR CREATE YOUR OWN ITS THAT EASY.

There are variations in the layout of the floorplan between the caravan and pop top.

Our Nomenclature explained. Example XT2 - 5950 - 4 - T

XT2 = Explorer Series

S

4 = Internal design Code

= Single Axle Configuration

5950 = Nominal internal body length in mm

T = Tandem Axle Configuration

- Body length, height, width, tare mass, ATM, GTM, and ball weight not supplied as these change pending final specification. Please contact your Dealer or Coronet RV for a guide.
- Queen Bed size = 1900mm long x 1530mm wide (Larger bed(s) available)
